ABOUT

I make complex enterprise software feel calm and simple. I'm a senior designer with 20+ years across product UX, brand, editorial and digital. I'm at my best turning messy requirements and dense information into clear, well-made experiences. I work as a hands-on senior design voice, close to Product and Engineering from the first conversation through to launch, and I care about every detail.

SKILLS

Design

- Product UX/UI
- Design systems & component libraries
- Information architecture & workflows
- Prototyping & interaction design
- Accessibility (WCAG)
- Art direction, illustration & motion
- Brand identity & rebranding
- Editorial & data visualisation

Collaboration

- Cross-functional collaboration
- Design direction & critique
- Mentoring
- Complex problem-solving

Tools

- **Design:** Figma, Adobe Creative Suite
- **Interactive:** Ceros, Wix, Squarespace
- **AI:** Claude, Copilot
- **Development:** Azure DevOps, GitHub, Angular (working knowledge)
- **Productivity:** Microsoft Office

EDUCATION

Grant MacEwan University

`Visual Communications Design:`
`Design & Digital Media`
`2000 - 2004 | Edmonton, Canada`

INFORMATION

Nationality: Canadian

Residence: Katowice, Poland (residence permit, full right to work)

Languages: English (native), Polish (A1 - A2)

KIND WORDS

"Scott's ability to see the strategy behind the design request sets him apart… should be viewed as a creative director."

`- Marlene Shaffer, former manager`

EXPERIENCE

KLDiscovery

`UI/UX Designer`
`10.2021 - Present | Remote`

- Design UI/UX for Nebula, an AI-powered enterprise eDiscovery platform, turning complex legal workflows and very large document sets into clear, intuitive experiences across the case lifecycle.
- Directed the visual design of Nebula AI Case Explorer (2026), an AI tool for early case intelligence. Involved from the first product and engineering discussions to launch, taking early concepts and wireframes to finished workflows and visual design that help legal teams find key people, themes, events and timelines before review.
- Leading the visual foundations of a new product design system that grew out of Case Explorer. It's planned to roll out to Nebula in 2027 and then across 3–4 more KLDiscovery products after that.
- Mentored two designers through design reviews, critique and ongoing coaching in a demanding legal-tech domain.
- Introduced AI-assisted workflows (Claude) to speed up prototyping, document the component library and build internal tools such as automated colour-swatch recognition.

Freelance Design (*alongside KLDiscovery)*

`UI/UX, Brand & Interactive Design`
`05.2023 - Present | Remote`

- KB Structures (2026): Complete identity for a structural engineering consultancy: logo, visual system, guidelines, and a branded Word document suite the team uses every day.
- Heidrick & Struggles (2023 - 2025): UI/UX, interactive and brand-aligned design for ongoing digital initiatives, advising Directors and the VP of Global Marketing on usability and design decisions. Work included product interfaces, report and case-study templates, advertising, print, trade-show environments, interactive reports and microsites built in Ceros.
- Helped the Heidrick team bring heidrick.com up to WCAG accessibility standards through colour contrast, typography, and focus states.

Kroll / Duff & Phelps

`Senior Marketing Associate / Graphic Designer / Junior Graphic Designer`
`05.2016 - 10.2021 | Remote & Katowice, Poland`

- Took part in setting the design direction for the full corporate rebrand from Duff & Phelps to Kroll, carrying the new identity across marketing, reports and digital channels.
- Art-directed and designed Kroll's flagship Global Fraud & Risk Report, building it from a blank page in 2016 and evolving it over four annual editions and 10+ regional versions.
- Designed and built interactive microsites in Ceros, alongside brand assets, reports, presentations and campaigns across digital and print.
- Promoted through three design and marketing roles during a period of mergers and acquisitions, and mentored junior designers through reviews, feedback and shared best practices.

Freelance & Early Career Experience

`Designer / Graphic Designer / Production Artist (Calder Bateman & freelance)`
`2004 - 2016 | Remote & International`

- Built a strong agency foundation at Calder Bateman, a top-tier design agency in Edmonton, developing craft in brand, advertising and production.
- End-to-end freelance brand, digital and marketing design for clients across North America, Europe and Asia.
- Won a number of competitive 99designs contests, several of which became long-term client relationships spanning multiple projects. The work included identity systems for restaurants, writers and apparel brands.
